contact: RAMON GUILLEN

Type of products

amulets, pots, zemies, potizas

Materials used

clay

With the objective of saving the cultural heritage of our ancestors, the Taino Indians, and as a way to strengthen our identity through clay, we started to make our first taino pieces in 1987. Each piece is handmade and burned on fire, following the same traditional procedures. We have also integrated inherent characteristics from Africa in our creations (God of the Sun and Moon). In each of our pieces the noble and kind spirit of the Tainos is present.
